CAREER OBJECTIVE

Enthusiastic and detail-oriented Computer Engineering graduate with a passion for web development and building real-world tech solutions. Eager to apply technical skills and creative thinking to contribute effectively to a progressive organization..

EDUCATION

Silver OAK Institute of Technology,

Bachelor of Technology (B.TECH) in Computer Engineering - CGPA - 8.78

2022 – Present

Ahmedabad, India

Puna International School

HSC - Percentage - 77%

2020 – 2022

Ahmedabad, India

TECHNICAL SKILLS

Languages: Python

Web Technologies: HTML, CSS, JavaScript,

Databases:SQL

Developer Tools:VS Code, Git, GitHub

PROJECTS

1.Dominos Food Ordering System | Technologies Used:Python, SQL, HTML, CSS, Tailwind CSS

- Built a Python-based Dominos-style food ordering application with user authentication and menu management.
- I worked on the frontend using HTML, CSS, and Tailwind CSS to design clean and responsive pages.
- Implemented user signup and login system using SQLite for securely storing user credentials
- Enabled users to select items by number, add them to a cart, and compute the final bill automatically
- Used Python concepts such as OOP (classes/objects), loops, dictionaries, data mapping, and file/database handling.

2.Student Management Dashboard | Technologies Used:HTML, CSS, JavaScript, JSON

- Developed a Student Management Dashboard to manage student records including add, update, delete, and view operations using JavaScript and JSON-based data handling.
- Designed a responsive and user-friendly interface using HTML and CSS, ensuring smooth navigation and clean layout across devices
- Implemented CRUD functionality with proper form validation to maintain accurate and structured student data.
- Used JavaScript DOM manipulation and event handling to dynamically update student information without page reloads

INTERNSHIP

Qspiders (A software training Institute)

DEC 2025– Present

Python Fullstack Developer Intern

Ahmedabad, Gujarat

- Currently undergoing training in Python Full Stack Development, covering frontend and backend fundamentals.
- Learning Python core concepts including OOPs, data types, looping statements, and functions with hands-on practice.
- Practicing HTML,CSS and JavaScript to build structured and responsive web pages.
- Developing understanding of web application flow and basic frontend–backend integration concepts.
